Eastland® Vases

IDEA #1 from Joel

Looking to add some height to your holiday table display? My friend, Barb, had a wonderful idea. She suggested to not only use your cylinder vases as a riser, but to stuff the cylinder with your favorite holiday décor!!! For this christmas arrangement, we took some small ornaments and placed them in a six inch cylinder and turned it over. Now we can wrap it with wire and bling those cylinders!

Made

IDEA #2 from Joel Layer it up! Use burlap as a base, layer in a roll of ribbon and lay trays of varying sizes to gather and group your holiday decorations and give them a fanciful, new look! To create this look, I just took some green burlap runner and put it down the length of both sides of the table, added a faux slate plate with a frosted votive holder, monogrammed wine glass, and a chalkboard tent sign name plate and here you have a fun, simple look for your next family get together!!

"I am very pleased with the quality of these vases, they are almost if not perfect. No minor flaws and the glass is thick and good quality. I'm very pleased with the product and service."

-Fran from MO

Vintage inspired glass has an enduring, classic appeal that easily adds a warmth to any setting. We love the delicate stampings and interesting shapes of Vintage Glass bottles, the rich green colors on the recycled wine bottle vases, and the simplicity of the thick glass bud vases.

MEET MR. GOBBLE

IDEA #3 from Joel

I am wild on wire!!!!
Not only can wire freshen up last year's decorations and give them a new look, but why not take something natural/organic and wrap wire around it, or even attach wire to it for an entertaining spin on the traditional decoration!!!!

Check out my Thanksgiving Centerpiece, Mr. Gobble! I created Mr. Gobble using 2mm decorative wire and rolled it into circles. Simply stick the wire into the pumpkin creating his eyes. I then took some more wire and wrapped it around my finger, wrapped it on itself, and just made it look fun. I placed that wire into the sides of the pumpkin to create Mr. Gobble's wings. This is a great look, especially when partnered with chalkboard votive holders. Be sure to find us on YouTube for more spunky ideas for the holidays!
